Product Designer with 3+ years of experience shaping B2B, SaaS and AI-powered products from concept to production. Proven track record in translating user insights and business goals into product strategy, scalable design systems and deliver production-ready digital experiences.

WORK EXPERIENCE

Product Designer II

EdPi Innovate | Jun 2025 - Present

- Led end-to-end product design for an **AI-supported B2B organization management** web and mobile app, taking the product from early concepts to **MVP and production-ready pilot**.
- Built the product's **production-level design system** from scratch, designing scalable components, screens, interaction patterns, and motion design.
- Conducted user research, client interviews, and usability testing, to understand pain points, simplify complex workflows and improve the product experience.
- **Led a team of 2 frontend engineers and 1 designer**, overseeing implementation, developer handoff, design QA, and design-accurate feature delivery.
- Worked directly with the CEO and CTO as **part of the core founding team**, contributing to early feature ideation, stakeholder meetings, product strategy, and fundraising efforts.
- Owned the company's **brand identity and website**, including logo, pitch decks, illustrations, banners, business cards, IDs, and website design.

Product Designer and Researcher

IIT Delhi | Dec 2024 - May 2025

- Designed user manuals for government school teachers to support the effective use of Alexa i classrooms, enhancing digital literacy.
- Conducted **UX research** to understand challenges in integrating voice-assisted technology in educational settings, leading to a more user-friendly manual design.
- Led **user research and prototyped a product** aimed at measuring and improving physical development in preschool children, based on behavioral studies and ergonomic analysis.

UI/UX Designer

Serene Homes | Jan 2024 - Dec 2024

- Led **UI/UX design for the website** and a **software product**, covering user research, wireframing, prototyping, responsive UI, and a **scalable Figma design system**.
- Owned the company's **brand identity** and **visual communication**, including the logo, pitch decks, business cards, social media graphics, and short-form video/reel content.
- Improved the digital experience, contributing to a **42% increase in user engagement** and **17% reduction in bounce rate**.

UI/UX Designer

Rupantaran (NGO) | Nov 2023 - Jan 2024

- Designed the **complete website UI/UX in Figma**, including user flows, wireframes, prototypes and accessible responsive interfaces.
- Built the **frontend and backend** using **React** and **PHP**, contributing to a **60% increase in volunteer participation** and **45% increase in donations**.

SDE Intern

Defence Research and Development Organisation | July 2023 - Sep 2023

- Developed a **deep-learning based fire detection system** for CCTV monitoring, improving **detection accuracy by 35%** and reducing false alarms.
- Implemented real-time monitoring, improving **response time by 20%** and enabling earlier fire detection.
